INTRODUZIONE

Ciao sono Massimo Prete e tra le altre cose gestisco il sito <http://www.mpcatalogo.com/>.

Nel mio sito offro altri ebook gratuiti che trattano lo spinoso argomento del **Guadagno Online**.

Perché spinoso?

La risposta è semplice. Molti personaggi poco trasparenti promettono **facili guadagni** online, magari senza far nulla o dedicando pochi minuti al giorno al lavoro.

Inutile dire che se fosse così semplice, saremmo tutti ricchi!

Infatti, creare una rendita online è tutt'altro che semplice; sono necessari i giusti strumenti e le giuste "strategie".

Ma sto andando decisamente fuori tema, quindi se vuoi approfondire, ti consiglio di visitare il mio sito <http://www.mpcatalogo.com/> e scaricare gli ebook gratuiti.

L'ebook che vado ad illustrarti, in realtà è una semplice **lista di directory** nata nel disperato tentativo di rendere popolari i miei siti.

Ho trovato, nelle mie ricerche online, parecchie liste di directory.

Sono circa 7.500 in tutto.

Solitamente si presentano in file Word o Notepad, prive di link attivi, che **comportano un'enorme perdita di tempo**. Infatti, ero costretto a fare il copia ed incolla dell'URL delle directory sul mio browser di navigazione.

Così ho deciso di racchiudere, in un **normale pdf**, tutte le directory in mio possesso **rendendo attivi i link** (per fortuna esiste un'opzione di Adobe che riconosce e attiva automaticamente gli URL).

Ed ora ho deciso di condividere il mio lavoro.

L'inclusione dei tuoi siti su tutte queste directory, aumenterà la **link Popularity** del tuo sito e di conseguenza il **Page Rank**.

E' bene evitare gli **scambi organizzati** (fra l'altro comportano una perdita eccessiva di tempo) ed i **freelink** (in questo caso i link vengono, appunto, inseriti subito ma non servono a niente perché hanno un valore discutibile).

Non fare tutte le segnalazioni in poco tempo (sempre che sia possibile) perché **troppi backlink** che arrivano tutti assieme possono far **reagire male i motori**; l'ideale è proporli piano piano (distribuiti in almeno 3 mesi).

Le **descrizioni** proposte vanno **rigorosamente variate** (avere link con tutte le descrizioni uguali fa in modo che gli algoritmi di ranking dei motori li possano interpretare come link forzati).

Inoltre è bene evitare le **submission multiple**, quindi segnati sempre a che punto della lista sei arrivato.

Quasi sempre se il tuo sito viene respinto la prima volta è inutile procedere ad un nuovo tentativo (a meno che non sia variato il contenuto).

UN UTILISSIMO STRUMENTO

Forse penserai che inserire il tuo sito anche solo in 1/10 delle directory che ti propongo, **ti costi un bel po' in termini di tempo**.

Beh, in effetti, sarà così!

Ma, per aiutarti nel lungo e noioso inserimento, esiste un **software**

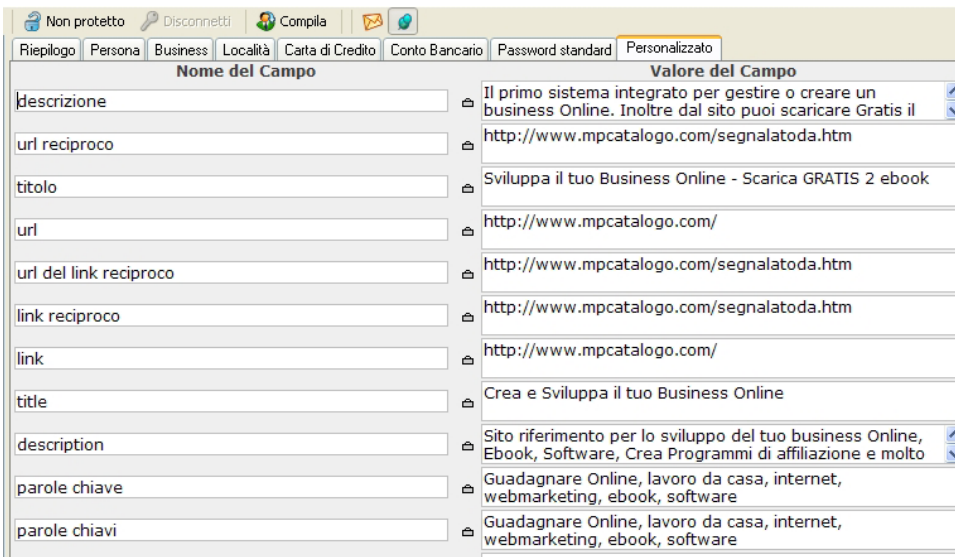

che permette di **compilare automaticamente** i moduli online.

Si chiama [RoboForm](#)

L'opzione del software che ti serve è la possibilità di creare campi con titoli personalizzati.

Ogni volta che dovrai compilare i campi, per inserire i tuoi siti, con un semplice click, il programma riconosce il titolo del campo e lo compila in base al contenuto che hai inserito nel software.

Per farti capire meglio ecco uno screenshot d'esempio:

The screenshot shows a web browser window with a toolbar at the top containing icons for 'Non protetto', 'Disconnetti', 'Compila', and others. Below the toolbar is a navigation menu with tabs: 'Riepilogo', 'Persona', 'Business', 'Località', 'Carta di Credito', 'Conto Bancario', 'Password standard', and 'Personalizzato'. The main content area is a table with two columns: 'Nome del Campo' and 'Valore del Campo'. The table contains the following data:

Esiste una **versione Gratis** di [RoboForm](#), ma con limitazioni:

Clicca [qua](#) per vedere come funziona [RoboForm](#)

Di certo, se userai il programma risparmierai un sacco di tempo!

Ma, che tu decida di usare o meno [RoboForm](#), è giunto il momento di scoprire la **lunghissima serie di directory**.

Credo che sia una lista completa e utile.

IL LISTONE

Alcune sono "recensite" (non sempre da me), ma altre potrebbero non essere più esistenti oppure non essere più directory.

Non le ho ancora visitate tutte, quindi non posso essere sicuro che tutte siano davvero valide.

LEGENDA:

Directory pura: si intende che non richiede link di scambio o pagamenti.

Controlink: scambio di link

Link organizzato: scambio di link

Freelink: non c'è controllo nell'inserimento, il link vale poco.

I social bookmark sono evidenziati con *.

I siti di **article marketing** e di **comunicati stampa** sono evidenziati con: ** .

Buon Lavoro!!
